ANCHORAGE, ALASKA AR No. 2023-182

A RESOLUTION OF THE MUNICIPALITY OF ANCHORAGE APPROPRIATING NOT TO EXCEED SEVEN MILLION DOLLARS (\$7,000,000) OF AREAWIDE GENERAL FUND (101000) FUND BALANCE TO THE AREAWIDE GENERAL CAPITAL IMPROVEMENT PROJECTS (CIP) FUND (401800), MAINTENANCE & OPERATIONS DEPARTMENT, TO BE USED FOR CONSTRUCTION OF A NAVIGATION CENTER AND EMERGENCY SHELTER AT TUDOR AND ELMORE (SITE 27).

WHEREAS, the Fairview community has been unfairly burdened with the use of the Sullivan Arena as a last second Emergency Cold Weather Shelter and unless action is taken they will again have a high probability of experiencing that same burden in the fall of 2023, and

WHEREAS, it has been shown that the Sullivan Arena is not a purpose-built Emergency Cold Weather Shelter and is not ideally located for such services placing undue burden on the surrounding Fairview Community, and

WHEREAS, the proposed Navigation Center, through prior efforts in 2021 and 2022, has shown that the Tudor and Elmore site (Site 27) meets many of the ideal criteria such as location near medical, police, and transportation services; and not immediately embedded in a neighborhood community, and

WHEREAS, the Cold Weather Emergency Shelter would have the ability to provide shelter for 150 beds with an additional surge capacity of 50 beds, and

WHEREAS, the Municipality of Anchorage defines a "Navigation Center" as a Housing First, low-barrier, service enriched environment focused on moving individuals experiencing homelessness into permanent housing that provides temporary living facilities while case managers connect individuals experiencing homelessness to income, public benefits, alcohol and drug substance misuse treatment, health services, shelter, and housing; and

WHEREAS, the proposed Navigation Center will follow a "Housing First" approach that prioritizes permanent housing to people experiencing homelessness, thus ending their homelessness and serving as a platform from which they can pursue personal goals and improve their quality of life; and

WHEREAS the commitment to this approach is guided by the principle that people

need necessities like food and a stable place to live before attending to anything less critical, such as getting a job, budgeting properly, or attending to behavioral health issues; and

WHEREAS, the commitment to Housing First is based on the principle that client choice is valuable in housing selection and supportive service participation, and that exercising that choice is likely to make a client more successful in remaining housed and improving their life; and

WHEREAS, the Municipality will employ the five keys of effective emergency sheltering at the Emergency Cold Weather Shelter co-located with the proposed Navigation Center: (1) Housing First approach, (2) safe and appropriate diversion, (3) immediate and low barrier access, (4) housing-focused rapid exit, and (5) data-driven performance measurement, and the Municipality will continue to work with a variety of subject matter experts in designing, implementing and supporting the programs, operations and services at the Navigation Center; and

WHEREAS, the Municipality acknowledges that Emergency Cold Weather Shelter and other types of crisis housing (crisis beds, interim housing, motel vouchers) play a critical role in the Municipality's Emergency Cold Weather response and that people in a housing crisis will always need a safe and stable place to go that is immediately available; and

WHEREAS, the Municipality commits to support the community's goal of reaching functional zero, which is a milestone that indicates a community has measurably ended homelessness for a population and that success is measured by whether they are driving population-level reductions in homelessness; and

WHEREAS, the Municipality commits to limiting the duration of the proposed Emergency Cold Weather Shelter to keep the focus on achieving functional zero through housing individuals experiencing homelessness and supporting existing shelters, prevention and housing programs in Anchorage; and

WHEREAS, the Municipality acknowledges that emergency mass care provided by the Municipality is an extraordinary intervention in response to an unprecedented

pandemic and that unwinding mass care takes resources and interventions that are time limited to meet the heightened immediate need and that the community's plan to end homelessness is focused on Housing First; and

WHEREAS, the Municipality commits by this Resolution to prioritize spending onetime funds on the procurement, construction, and operation of the proposed Navigation Center, and to prioritize the recurring funding for housing and homelessness services currently in the Municipality's budget on supporting effective Cold Weather Emergency Shelter, prevention and housing programs in Anchorage; and

WHEREAS, the annual operating cost for the Navigation Center and Shelter is estimated by the Navigation Center and Emergency Shelter Operations Plan presented on October 18th, 2022 at \$5,990,664 and such operation costs will be

separately funded and be awarded via RFP; now, therefore, THE ANCHORAGE ASSEMBLY RESOLVES: Section 1. That the sum of Not to Exceed Seven Million Dollars (\$7,000,000) is hereby appropriated from 2022 Areawide General Fund (101000) Fund Balance to the Areawide General Capital Improvement Projects (CIP) Fund (401800), Maintenance & Operations Department, to be used for the procurement and construction of a homeless and transient Navigation Center and Emergency Shelter with a capacity of 150 overnight beds with a surge capacity of 50 overnight beds, specifically to be located at Site 27 in the vicinity of Tudor Road and Elmore Street. Section 2. This resolution shall be effective immediately upon passage and approval by the Assembly. PASSED AND APPROVED by the Anchorage Assembly this day of _____, 2023. Chair ATTEST: Municipal Clerk

Department of Appropriation:

Maintenance & Operations: \$7,000,000
